## 2Good2Go: Waste Free Economy Transformation for SMEs

**2Good2Go is a result of the strategic partnership of 5 European countries, aiming to introduce waste free economy models into SMEs and everyday lives and take actions that contribute effectively to the sustainability transition**

### Objectives:

1. Encourage SME leaders to start the transformation process and develop waste free economy policies and implementation action plans for their organisations and to set examples for other SMEs
2. Catalogue and develop SME leaders and project partner competencies, necessary for successful transition to the waste free economy, and encourage their development as sustainability change agents
3. Equip VET providers with ready made learning structures, best practice examples and tools to support the adaptation of their training offers to SME

### Target groups:

SME leaders/owners/managers  
VET educators  
Partner organisation employees
